However, where the anticipated annual revenue from a building exceeds \$200, one additional foot of service pipe will be installed by the Company free of charge for each additional \$4 of anticipated annual revenue. These provisions are applicable to necessary replacements of service pipe, but where the location of such pipe is changed at the request of the Customer, the Customer shall bear the entire expense thereof. Whenever, at the Customer's request, a service pipe is provided by the Company as above through which service is not immediately desired, said Customer shall bear the entire reasonable expense of installing the service pipe and accessories, but he shall be entitled to a refund whenever gas service is begun for that part of the expense which, as hereinbefore stated, the Company customarily assumes in the case of a service for immediate use. Such refund shall be the cost of said service pipe and accessories, less depreciation at the rate of 3 percent per annum for the period which said pipe has been in the ground.

7.3 SERVICES INSTALLED BY OTHERS

Where the Customer makes arrangements for others than the Company to install service pipe, the work shall be done subject to the approval of the Company.

8.1 PIPING, APPARATUS AND INSPECTION

All inside piping and apparatus from the meter outlet and a proper location for the Company's meter and other apparatus shall be furnished and maintained by the Customer in accordance with the requirements of the Company and any Pennsylvania State law and/or municipal regulation that may be in force, and it shall be a condition precedent to the initial and continuing supply of service by the Company that the Company may seal such service, and that such seal shall not be broken or in any way interfered with by the Customer.

The Company reserves the right to make an inspection of premises before rendering service in order to see that its rules are complied with. Neither by inspection or nonrejection, nor in any other way, does the Company give any warranty, express or implied, as to the adequacy, safety or other characteristics of any structures, equipment, pipes, appliances or devices owned, installed or maintained by the Customer or leased by the Customer from third parties.

8.2 INCREASED CAPACITY

The Customer shall give the Company reasonable advance notice, in writing, of any proposed increase in service required, stating the (C) amount, character and expected duration of time the increased service will be required. If such increase necessitates added or enlarged facilities (other than metering equipment) for the sole use of the Customer, the Company may require the Customer to make a reasonable contribution to the cost of adding or enlarging the facilities whenever the Customer fails to give assurance, satisfactory to the Company, that the taking of the increased service shall be of sufficient duration to render the supply thereof reasonably compensatory to the Company.

The Company's authorized employees or agents shall have free access, at all reasonable times, to its meters or other property, and to all the piping and equipment owned by the Customer or anyone else, and installed on the Customer's premises, for the purpose of inspecting or testing the same or to repair, change or remove any of the Company's property.

9.2 IDENTIFICATION OF EMPLOYEES

Company employees or agents authorized to enter upon its Customers' premises are provided with identification cards which will be shown upon request. Customers are advised not to admit to their premises anyone claiming to represent the Company unless he can produce a proper identification card.

9.3 METERS

(C)

Gas supplied shall be measured by meters furnished, installed, and maintained by the Company.

9. METERING AND BILLING (Continued)

9.5 RENDERING OF BILLS

Rates and Charges are stated on a monthly basis as set forth in the Service Classifications. For billing purposes, a monthly period will be considered as 26 - 35 days. In determining the charges for billing periods other than a monthly period, the monthly rates, as stated in the Service Classification, are prorated on the basis of thirtieths of a month.

Bills for service will be rendered monthly. Bills for residential service for any month in which no meter reading is taken are rendered on an estimated basis. When the Company is unable to obtain meter readings on regular reading dates, bills are rendered (1) on readings by Customers if said readings are received on or before the date shown on the meter indexing card, or (2) on estimated readings. Amounts billed on the basis of such estimates are subject to adjustment in accordance with the next meter readings obtained by the Company.

In case any meter for any reason fails to register the full use of service by the Customer for any period of time, the usage of service by the Customer for the period may be estimated by the Company on the basis of available data, and the Customer billed accordingly.

9.6 LATE PAYMENT CHARGE (C)

The Company may impose late payment charges on any bill not paid within five days of the due date at the rate of one and one-half percent (1.5%) per month on the overdue balance of the bill. The interest rate, when annualized, will not exceed 18% simple interest per annum.

9.7 CHANGE OF RATE (C)

Service Classifications and Rules and Regulations under which Customers are served are subject to such changes as may be lawfully made. Customers taking service under a rate schedule so revised shall thereafter take and pay for service in accordance with the provisions of the revised or superseding schedule so established.

(C) Emergency Action

- (1) An emergency exists whenever the aggregate demand of firm service customers on the Company's system or confined segment of the system exceeds or threatens to exceed the gas supply or capacity that is actually and lawfully available to the Company to meet the demands, and the actual or threatened excess creates an immediate threat to the Company's system operating integrity with respect to Priority 1 customers as defined in Section 10.3(C) (9).
- (2) If, in the sole judgment of the Company, there is sufficient time, the Company shall use reasonable business and operational efforts to: interrupt all interruptible services, issue operational flow orders, and call for voluntary usage reductions by all customers before taking any action under subsection (3) below. The Company shall take these three actions sequentially to the extent feasible.
- (3) In the event of an emergency, the Company may require each commercial and industrial retail customer that is not a Priority 1 customer, as defined in Section 10.3(C) (9), to reduce its consumption of gas.
 - (a) The reduction required shall be determined by the Company without regard to priorities of use, as necessary to minimize the potential threat to public health and safety.
 - (b) The minimum authorized usage may not be lower than the minimum usage of firm service necessary for plant protection use.
 - (c) When all other service has been curtailed except for Priority 1 service and the Company continues to be unable to meet Priority 1 requirements, the Company shall exercise its judgment as to any further curtailment that may be necessary and shall utilize measures designed to minimize harm to customers if curtailments to plant protection use are found to be necessary.

The gas cost rate shall be applied to each Ccf (100 cubic feet) of gas supplied under Service Classification Nos. 1 and 2 of this Tariff.

(B) Computation and Application of Gas CostRate (C)

The gas cost rate shall be computed to the nearest one-thousandth cent (0.001¢) in accordance with the formula set forth below:

$$GCR = [(C-E) / S] \times [1 / (1-T)] \times 10$$

Each gas cost rate so computed shall be applied to customers' bills for a one (1) year period during the billing periods of November through October (GCR No. 15 to be effective on September 1, 2015 through October 31, 2016) provided, however, that such rate may be revised on an interim basis subject to the approval of the Pennsylvania Public Utility Commission upon determination that the effective rate will result in at least a two percent change in the current GCR if not revised. Such interim change shall become effective ten (10) days from the date of filing unless otherwise denied or modified by the Commission.

(C) DEFINITIONS

"GCR"--gas cost rate determined to the nearest one-thousandth cent (0.001¢) to be applied to each Ccf of gas supplied under Service Classification Nos. 1 and 2 of this Tariff.

"C"--a number of dollars, determined as follows: (a) for all types of purchased gas, project the cost for each purchase (adjust for net current gas stored) for the computation year plus (b) the arithmetical sum of (1) the projected book value of noncurrent gas at the beginning of the computation year minus (2) the projected book value of noncurrent gas at the end of the computation year.
